

William B Long, III
Meritorious Achievement Award

Award Profile: Given in honor of William B Long, III to an individual who has made significant contributions to the field of chest wall injury fixation and non-operative management.

Criteria for Selection:

- Principal criteria for selection process: impact of scientific publications and presentations at professional meetings related to the science and treatment of chest wall injury.
- Also, national and international stature in the field of chest wall injury.
- Also, impact as a teacher and mentor will also be taken into consideration.
- Both U.S. and non-U.S. residents are eligible for award.
- Contributions and volunteer service to both national and international organizations and the broader chest wall injury community may also be taken into consideration.

Lecture/Publication of Lecture:

- Recipient will deliver the William B Long, III Award Lecture at the 2019 Chest Wall Injury Summit, Santa Fe, New Mexico.
- Offered the opportunity to publish lecture, either in pending society-journal-partner or on www.cwisociety.org.

Registration:

- Includes complimentary registration to 2019 Chest Wall Injury Summit for recipient.

2019 Nomination/Submission Process:

- 2019 nominations must be submitted using the electronic nomination form. All submissions must be received on or before 11:59 PM ET on July 31, 2018.
- Nominations are accepted from any member of the Chest Wall Injury Society.

All William B Long, III Award nominations must have the following documents uploaded as one .pdf file:

- Letter of nomination (no more than 400 words), signed by no more than 3 individuals, will be accepted. Letter of nomination should address criteria for selection.
- Nominee's biography
- Nominee's CV with career, mentoring, and publication highlights.
- Please include a list of current and former Mentees/Trainees

Questions? Contact SarahAnn Whitbeck by email at sarahann@cwisociety.org or call (801) 910-3241.

Selection: The recipient is chosen by the Education Committee and approved by the Executive Committee of the Chest Wall Injury Society, August 2018.
